Staff Contact: Esther Guerrero, (915) 541-4720, guerreroex@elpasotexas.gov

Esther Guerrero, Planner, noted that this item was presented to the Commission on November 3, 2011, and the Commission asked staff to look at some restrictive uses on this property, access and platting issues. Ms. Guerrero gave the Commission an update and noted that staff is still recommending denial of this request because it is not compatible with the surrounding existing residential uses and residential districts.

Lupe Cuellar, Assistant City Attorney, noted that the Commission had asked whether or not we could restrict some uses in the C-3 zone. Staff is still recommending denial because if access is restricted and it is rezoned to C-3, if at a later time, the applicant decides to sell then the second lot becomes land locked.

Mathew McElroy, Deputy Director for Planning, noted that we cannot restrict access off of Bob Hope but if it is rezoned to C-3 all the activities that take place in a C-3 zone start coming out of Bob Hope. This is why staff is recommending denial of this request.

Adriana Castillo with the EPWU/PSB noted that they have an objection to this request.

Enrique Rey with Rey Engineering noted that the potential owner of this lot is willing to replat but wants to make sure he gets approval of a C-3 zone.

Commissioner Nance asked if there was anyone in the public who wished to speak in favor or against this request. There was no response.

Commissioner Nance asked if there was anyone in the public who wished to speak in favor or against this request.

Ruben Barron had signed up to speak but noted that his concerns were answered by Mr. Conde during the discussion on this item.

Michelle Padilla with the Department of Transportation noted that they are not too concerned with internal commercial but are more concerned with the commercial along Marcus Uribe and are requesting that access to that lot be coordinated with and approved by the Department of Transportation prior to building permits being issued.

Lupe Cuellar noted that it does not have to be a condition on the zoning but will be a comment that will be added to the Master Zoning Plan.

11. Discussion and action on an Ordinance amending Title 21 (SmartCode), Chapter 21.80 (Tables) of the El Paso City Code to modify standards for the T4O transect (General Urban Zone – Open). The penalty is as provided for in Chapter 21.60 of the El Paso City Code.
Staff Contact: Melissa Granado, (915) 541-4730, granadom@elpasotexas.gov

David Coronado, Lead Planner, gave a brief presentation and noted that they are amending the standards for the T40 Transect (General Urban Zone – Open). There have been a few changes to make it easier for developers to use. This is a very minor change in the code which allows the option to go from 3 to 4 stories maximum on this transit zone.

Commissioner Nance asked if there was anyone in the public who wished to speak in favor or against this request. There was no response.

ACTION: Motion made by Commissioner Carreto, seconded by Commissioner Vorba, and carried **TO APPROVE AN ORDINANCE AMENDING TITLE 21 (SMARTCODE), CHAPTER 21.80 (TABLES) OF THE EL PASO CITY CODE TO MODIFY STANDARDS FOR THE T40 TRANSECT (GENERAL URBAN ZONE – OPEN).**

12. Discussion and action on an Ordinance amending Title 20 (Zoning), Appendix B (Table of Density and Dimensional Standards), Subpart B (Lot and Dwelling Size, Other Standards) in the "A" (Apartment) Zoning Districts, to amend the open space requirements. The penalty is as provided for in Chapter 20.24 of the El Paso City Code.
Staff Contact: Kimberly Forsyth, (915) 541-4668, forsythkl@elpasotexas.gov

Kimberly Forsyth, Lead Planner, gave a brief presentation and noted that this change is coming before the Commission because the City is trying to facilitate the development of multi-family housing through the City. One of the obstacles the developers are encountering for apartments in the A-zones is that there is a significant requirement for open space that does not exist in commercial zones which also allows apartments. Ms. Forsyth read the definition for Open Space as it currently exists in the code. The last sentence **The calculation of required open space shall not include driveways, parking lots or other surfaces designed or intended for vehicular travel or storage.** This is a change from the 2007 code which previously required the same open space but allowed driveways and parking to be included in the calculation. In the current calculation in the A-1 and A-2, for example, you have a requirement for 50% of the lot to be open space. Staff is proposing to reduce the 50% to 35%, still a significant requirement for open space and reduce the 40% to 25% for corner lots. This is being taken to the Chamber of Commerce Infrastructure Committee for their review and based on comments staff feels this will be agreeable to them. She noted that the Landscape Ordinance had recently been changed to require more landscape.

ACTION: Motion made by Commissioner Carreto, seconded by Commissioner De La Cruz, and carried to **RECOMMEND THAT STAFF COME BACK WITH A CHANGE TO ADD OPEN SPACE REQUIREMENTS TO COMMERCIAL DISTRICTS.**

AYES: Commissioner De La Cruz, Carreto, Vorba, and Landeros

NOT PRESENT FOR THE VOTE: Commissioner Wright

Commissioner Nance noted that Commission asked staff and the Engineering Department to review the park pond requirements as far as what the slopes need to be for the parks in order to be a park pond.
